INTER STATION MEMO

To: Those Lister Below
From: Scott Robb

Date: Sept. 22, 1965

As you all should know by now the fall Board of Directors' Meeting has been scheduled as usual on the first Saturday of October at Yale. (The meeting will once again be held in the Board Room of Strathcona Hall which is located on the corner of Prospect and Grove Streets.) I hope the October 2 date is fairly acceptable to all and will permit a majority of the stations' chief executive officers to be present. Each station should be represented by its general & business managers. Where this is not possible, representatives should be members of the station's executive board. The starting time for the meeting has been set for 10 o'clock.

By now all the stations should have begun broadcasting of the contracts outlined in my letter last week. We are still awaiting decisions on several additional contracts covering both 13 and 26 week periods with starting dates set for early October. I hope to have finalized orders on these by October 2.

A letter has been sent to all IVY technical directors concerning the plan passed at the Spring Board Meeting which called for the ordering of local telephone loops from the visitor's broadcasting booth at each stadium. The numbers of these local lines should be forwarded to New Haven so that the information can be co-ordinated and passed on to each IVY station.

One final matter- would you please complete the enclosed questionnaire concerning your news programming from 11pm-12 midnight. See you all on Saturday, October 2.

Cordially,

Scott
